

Dear Margaret M. Keane, CEO, Synchrony Financial,

We are pleased to present you with this petition affirming this statement:

"As you may know, American Express has began launching bank cards being produced from ocean plastics. I encourage your company to explore producing your bank cards out of ocean plastics and/or recycled materials in the near future as well.

It should be noted that:

- Well over a billion bank cards have been issued within our the United States**
- Plastic can take 1000+ years to decompose**
- Over 8 million tons of plastic are dumped into the ocean each year**

This initiative would make an indescribable impact in our communities, landfills, and waterways. Your company has the opportunity to make a huge impact and continue to be one of the most successful leaders! Thank you for your time and consideration."

Attached is a list of individuals who have added their names to this petition, as well as additional comments written by the petition signers themselves.

Sincerely,
Caleb Merendino
